KHUSHI SINGH

Software Engineering Intern | AI & Machine Learning Research

+91-7646099321 | khushisinghara268@gmail.com [LinkedIn] | [GitHub]

PROFESSIONAL SUMMARY

B.Tech (IT) student at GGSIPU with an **8.12 CGPA** and a **published research paper** in **NLP-driven automation**. Specialized in building **scalable AI solutions** and **full-stack applications** using **Java (Spring Boot)**, **Python**, and **React**. Proven expertise in developing **high-accuracy predictive models (92%)** and implementing complex **data-centric algorithms** to optimize system performance and user experience.

TECHNICAL SKILLS

- **Languages**: **Java (J2EE)**, **Python**, JavaScript (ES6+), **SQL**, HTML5, CSS3.
- **Frameworks & Libraries**: **Spring Boot**, **React.js**, Node.js, Express.js, Streamlit, Spring Data JPA.
- **Engineering & Tools**: **Git**, **GitHub Actions (CI/CD)**, **RESTful APIs**, Microservices, Postman.
- **AI & Data Concepts**: **NLP**, **Scikit-learn**, **Predictive Modeling**, Data Structures & Algorithms (DSA).

PROJECTS

B2B Customer Sentiment & Growth Predictor | NLP & Predictive Analytics [**Link**]

- Engineered a lead classification system using **Gradient Boosting** and **NLP** (TextBlob) that improved **scoring accuracy by 92%**.
- Implemented a **Scalable Data Pipeline** via CSV Batch Processing that reduced manual analysis time by **80%**.
- Deployed an end-to-end cloud solution using **Flask** and **React** leveraging **Claude API** for real-time recommendations.

Hacker News Post Success Predictor | Machine Learning & Optimization [**Link**]

- Developed a Machine Learning model to forecast engagement with **85%+ accuracy** based on post timing and metadata.
- Preprocessed a dataset of **10,000+ posts** and optimized statistical features to improve prediction rates by **40%**.
- Built the implementation using **Python**, **Scikit-learn**, and **Pandas**.

PairVault: Secure Credential Management System [**Link**]

- Developed a client-side encrypted vault using the **Web Crypto API**, ensuring **100% data privacy** via end-to-end encryption.
- Optimized state management and local storage, reducing **data retrieval latency by 40%**.
- Implemented **SM-2 algorithms** within a custom PWA to optimize memory retention for 600+ data pairs.

RESEARCH EXPERIENCE

Published Paper: "AI-Powered Document Generation: Using NLP for Intelligent Data-to-Template Mapping"

- **Publication**: Published in **IJLTEMAS** (Oct 2025).
- **Contribution**: Built a Document Automation tool using **Python** and **Streamlit** for data-to-template mapping.
- **Impact**: Integrated **NLP logic** for automated extraction, reducing manual entry errors by **40%**.
- **Link:** https://www.ijltemas.in/submission/index.php/online/article/view/3297

PROFESSIONAL EXPERIENCE

AXCENTRA | MERN Stack Intern **January 2026 – March 2026**

- Engineered **full-stack web applications** utilizing the **MERN stack** to deliver **scalable user solutions**.
- Designed and implemented **RESTful APIs** for seamless **frontend-backend integration** and **efficient data management**.

EDUCATION

- **B.Tech (IT)**: GGSIPU, New Delhi | **CGPA: 8.12 | 2022 – 2026**
- **Class XII**: DAV Public School, Arrah | **Result: 75% | 2021**
